Contracting for Efficiency

**Contract for energy efficient products and services!
Improve operations and save money!**

This course presents expert contracting best practices and resources to comply with the procurement and delivery of energy efficient products and services.

Learn to:

- *Identify the contracting requirements*
for purchasing energy-efficient products and services
- *Select covered product categories*
subject to efficiency requirements
- *Write solicitations and contracts*
that effectively communicate requirements to vendors
- *Accurately verify the delivery*
of compliant products and services
- *Utilize FEMP and EPA's ENERGY STAR resources*
to support contracting activities

Instructor:

Christopher Payne, PhD
